

T. SANTHOSH KUMAR
Java Developer

Mobile: +919966213518
Email: Talakokula.santosh@gmail.com

Professional Summary:

- ● **3.5 Years** of experience as a Java Developer in developing and supporting Web based Applications using **Java, J2EE** technologies.
- ● Worked on **Spring (IOC,MVC, AOP, ORM)**
- ● Worked on **Spring Boot, Rest Services**
- ● Knowledge on configuring **Zuul Server, Eureka Server, Eureka Clients**
- ● Experience on **Spring Security , Exception Handling**
- ● Experience in developing applications using **spring MVC**.
- ● Working Experience on **ORM Tool Hibernate**.
- ● Experience in Using **GIT** for code repository and as version control mechanism.
- ● Having good experience in unit testing by using **JUnit**.
- ● Experience in using **Log4j** for logging and debugging.
- ● Experience in using Integrated Development like **Eclipse**.
- ● Good working knowledge on **Tomcat Web Server**.
- ● Having good knowledge on database **MY SQL**.

Academic Profile:

- ● **B.Tech (Information Technology)** from Hyderabad Institute of Technology and Management, Gowdavelly village medchal (JNTUH)

Technical Skills:

- ● **Programming Languages** : JAVA
- ● **J2EE Technologies** : JDBC
- ● **Frameworks** : Spring
- ● **ORM Tools** : Hibernate with JPA Annotations
- ● **Web Services** : REST Full Services.
- ● **Database** : MySQL, Dynamodb,
- ● **Tools** : GIT, Log4J, JUnit, Maven,
- ● **IDE's** : Eclipse,Intellij,
- ● **Web/Application Servers** : Apache Tomcat,
- ● **Operating System** : Windows Family.

Projects:

Project #3 : Insurance Domain

Client : Acrosoft ,& PMCAS ,

.

Working In PST Team 24*7 .

Environment : spring-boot , AWS , Micro services : **Zuul Server, Eureka Server, Eureka Clients**

Description:

Pulling the Acrosoft generating letters and placing in shared folder respect to Application services and maintaining all services up and communicating with BPO users, TIG Team and client request. Analyzing the defects and comparing with base team and patch up the code and developed in Test Region.

PMACS: Implementing the catalogue services by adding financial Advisor FA to user account, and related members with accounts.

NBF : Implementing the catalogue services stories adding financial Advisor FA.

- Configure the Restpoint in AWS API Gateway
- Experience in AWS ,Aws IoT Concepts like Lambda , APIGateway, S3Bucket,Dynamodb
- Continuous integration & continuous deployment IAM,
- AWS java CL Upload stack and deploy stack
- Developing Terraform template Cloud formation and cloud watch
- Agile methodology

Responsibilities:

Supporting Acrosoft web Application, and Involved in Sprints stories

Implementing the catalogue services stories adding financial Advisor FA.

Writing Test case and configure the RESTAPI in Terraform template.

Project #2:

Title : Blip Info systems

Client : Blip

Description:

Feedback Engineering is an Intranet web-based Application which is used to solve the issues raised by end users. This application is used by four different teams such as Reviewing team, Admin team, Verification team and fixing team. Admin team uses this to give product access, add new products and distribute the issues. Reviewing use it to review the issues. Verification team uses this to verify the issues done by reviewers. Fixing team use it to get and fix the issues reviewed by reviewers.

Responsibilities:

- • Involved in developing **Rest Controller** classes using **Spring Boot** with **Maven**
- • Implemented **Service** classes and **DAO** Interface by using Spring Dao with **JPA Repository**.
- • Implemented **Feign** and **Hystrix**
- • Configured **Zuul**, **Eureka Server** and **Eureka Clients**
- • Implemented O-R mappings by using **JPA Annotation**
- • **Log4j** used for debugging the application
- • Performed Debugging and testing using **JUNIT** Test cases
- • Attending scrum meetings
- • Understanding the requirements of the client.

Project #1:

Title : Management System

Client : Simon jho

Environment: Java, spring, Hibernate, HTML, Eclipse

Description:

Management System Software helps to safeguard the flow of information coming across. It provides for efficient decision making for general management, streamlining financial accounts and patient care. It consists of various modules like Billing, , Reporting, Business Analytics, Outpatient, appointments, Laboratory, Reports and Bed Management, Discharge Summary, Doctor and Other Payments, Pharmacy ,Inventory and Stores Management all modules interact at the back end.

Responsibilities:

- • Involved in development of the views using **JSP** and **HTML**
- • Developed control mechanism **Spring MVC**
- • Responsible for developing **Hibernate POJO** Classes and Mapping files
- • Fixing and client support.
- • Prepared the design Workflow Module.

- ● Involved in development of controller classes using spring Framework.
- ● Responsible for Testing and Documentation Bug.

Personal Details:

Father's Name : T.VISHNU.
DOB : 24/04/1992.
Nationality : Indian.
Languages known : English, Hindi, Telugu.
Address : 8-202, Sanjay Gandhi Nagar, Jeedimetla IDA,
Hyderabad-500055.
